Senior Data Analyst

Description

The Senior Data Analyst and member of the Enterprise Data Office is responsible for driving a world-class global master data governance and conversion process within Ecolab that supports the company's growth, protects shareholder value, and develops associates. This is a key role within the EBS Data Conversion team with a primary focus on SAP conversion projects.

What You Will Do:

- Work in close partnership with Divisions, Supply Chain, Finance, and other functional areas both regionally & globally
- Serve as a specialist in the Commercial / Supply Chain master data area
- Execute training and development activities for master data areas
- Provide problem resolution and 'business' diagnostics on complex system/data issues
- Guides new countries/regions through the process of migrating data in SAP
- Establish and maintain successful working relationships with Business Data Stewards and business data owners during SAP projects
- Support change management activities
- Develop an understanding of Ecolab business models and systems blueprint
- Govern and support master data processes across systems
- Support execution of change requests
- Extract, Transform and Load MD into SAP
- Provide guidance and expertise to project and master data team members during Solution Confirmation
- Coordinate development and creation of data mapping workshop schedule
- Support successful data migration and cutover activities
- Support end-to-end testing of MD processes
- Execute knowledge transfer
- Support integration testing and defect resolution
- Establish and maintain successful working relationships with business data stewards, project leads and business data owners during SAP projects
- Support change management activities

What's in it For You:

- Onsite training giving you the opportunity to learn, grow and shape your career
- Private medical care for you and your family
- Additional life insurance
- Lunch subsidy for our onsite canteen
- Social events such as family events, charity auctions
- Attractive remuneration based on your experience and skills, other financial benefits such as an annual and Christmas bonus
- Hybrid system of work
