

## Junior Data Engineer

### Description

#### ABOUT US

Indie Campers, the go-to campervan Marketplace, is on a mission of making road trips available to everyone. Thanks to its digital approach and customer-centric orientation, Indie Campers has developed a strong booking experience and high-quality road trips at affordable prices.

With over one million nights rented through our travel platform, we have welcomed more than 300,000 travellers from 169 countries. We offer a comprehensive and expanding array of road trip possibilities: short-term RV rentals, long-term campervan subscriptions, and the possibility of buying one of our vehicles available for sale.

Rooted in a deep technological focus, our challenges are both exciting and demanding and require top talent and motivation to be successfully pursued. We are growing our team and looking for those interested in pursuing this dream with us and joining an ever-developing journey.

#### THE ROLE

As Indie Campers Junior Data Engineer, you will be responsible for building Indie Campers systems for data collection, management, and conversation, turning raw data into usable information for our Data team and various Business Stakeholders to use.

You will join our Data team in our Lisbon HQ, report directly to our CTO, and work closely with Engineering, Product, Marketing, Revenue Management, and Business Development teams.

#### WHAT WILL YOU WORK ON?

- *Build and sustain data pipelines to extract, clean and transform large-scale data sets;*
- *Design and build data management solutions focused on data acquisition, data quality, data transformation and migration planning;*
- *Expertise around data warehousing, ensuring report development and data modeling capabilities across Indie Campers.;*
- *Guarantee & Implement data structures to preserve institutional knowledge;*
- *Translate and optimise code from data scientists to production;*
- *Collaborate with data scientists, business analysts and department leads to test and implement algorithms and predictive models.*

- *Fluent in English,*
- *Eligible for an IEFP Internship (Bachelors or Masters in a relevant field, up to 30 years old).*

## **OUR GROWTH LAB PROGRAM:**

This position is a part of our Growth Lab Program.

### **What is it?**

A 3-year graduate program that helps recent graduates to kick-start their career in an international and fast-paced environment.

This program focuses on learning by doing and developing soft and hard skills, whilst being mentored by industry experts.

During this time you'll have the opportunity to gain a better understanding of Indie Campers' future challenges and work on how to better tackle them as well as gaining a lot of industry knowledge. This program encourages fast growth and a high level of retention, so during the first year, you'll be doing an IEFP Professional Internship and upon performance assessment, you'll join our team permanently.

If you want to jumpstart your career by being hands-on and taking ownership of your projects this is the right program for you.

## **WHAT WE OFFER?**

- The opportunity to be a key member in the scaling of a one-of-a-kind company in a fast-growing market;
- The chance to work with outstanding people from many nationalities and backgrounds in a "scale-up culture", to revolutionise the campervan road trip market worldwide;
- Free perks such as health insurance, Travel & Education vouchers, road trips in our campervans, free snacks and coffee in the office.

## **Are you ready to Go Indie?**

**How the process will look like**

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.

**Job Benefits**

USD 60K – 140K \*
