

BI Developer

Description

Wärtsilä is an innovative technology company known for being a forerunner in the Marine and Energy markets. Every day, we – Wärtsiläns – put our hearts and minds into turning Wärtsilä's purpose of enabling sustainable societies through innovation in technology and services into reality. Our ultimate aim is to provide increased value to both our customers and society. New, game-changing ideas and continuous improvement have been part of our DNA since 1834. Together, we can create new business opportunities and more sustainable future that we can all be proud of.

We want to transition the world towards a decarbonised and sustainable future. By pushing the boundaries of engineering and technology, we can make it work. We are always on the lookout for future-oriented talent – want to join the ride?

We are always on the lookout for a talent with a growth mindset – are you the one?

We at Marine Power, Power Supply are looking for a BI Developer to strengthen our Business Development team. The preferred location for this position is Finland or one of our other European locations.

Your role and responsibilities:

As a BI developer, your work is about data analysis and visualisation of the analysis results, development of reports and data models, and creation of insights and support for decision-making in the fields of financial, production, processes, and business intelligence-related data. Job includes also utilising the different branches of AI in the data analysis/prediction and supporting business development activities to meet strategic business objectives. The maintenance and end-user support for Power Supply BI applications is also a part of the job.

To succeed in this position, we expect you to have:

- MSc / BSc in a relevant field (Economics, Financial Accounting, Computer Science or equivalent)
- Experience with Power BI development
- Experience with database queries with SQL
- Experience in the maritime industry
- Good communication skills and fluency in English, both written and spoken
- Pro-active, analytical, systematic, and organised way of working
- Excellent customer service skills and problem-solving capabilities
- Skills in data analytics and programming AI / ML algorithms
- Experience with SAP is a plus

- An opportunity to be part of the global team which delivers products and services to decarbonize the maritime industry
- A way to make a difference. Innovation and sustainability are important for us
- Opportunity and support for your personal and professional development. We believe in continuous learning & teamwork
- An environment that empowers you and everyone around you, and where you can feel safe and cared for

Why you and us?

You are valued—as your true self. At Wärtsilä, YOU matter. We value diversity and are committed to supporting an inclusive work community.

Your growth is supported. We believe in continuous learning & teamwork. Wärtsilian community has your back when it comes to development opportunities – so you can develop beyond your potential.

You get to make a difference. Innovation and sustainability are important to us. Every day, we – Wärtsilians – put our hearts and minds into enabling sustainable societies through innovation in technology and services into reality.

Contact & next steps:

Please submit your application through our Careers portal before the deadline of 31.05.2024. Applications submitted through email will not be considered. After submitting your application, you'll receive a confirmation email. We try our best to get back to everyone within 2-3 weeks after the application deadline.

In case of any questions, reach out to:
Ville Tiikasalo,
Senior Manager, BU Analytics

Last application date: 31/05/2024

At Wärtsilä we value, respect and embrace all our differences, and are committed to diversity, inclusion and equal employment opportunities; everyone can be their true self and succeed based on their job-relevant merits and abilities.

All new Wärtsilä employees in Finland will attend occupational health checks, including drug tests/screenings. The country's legislation is followed when a person is located outside of Finland.

Please note that according to Wärtsilä policy, voluntary consent for a security check may be required from candidates being considered for this position, depending on the applicable country.

This is Wärtsilä

Wärtsilä is a global leader in innovative technologies and lifecycle solutions for the marine and energy markets. Our team of 17,000 professionals, in more than 200 locations in 68 countries, shape the decarbonisation transformation of our industries across the globe. Read more on www.wartsila.com.

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
