

Cloud Data Architect

Description

Job Title: Cloud Data Architect

Vacancy managed by: Max Mosley | Talent Acquisition & People Experience Lead

Flexible working hours and location: We trust you to work in a way that enables you to do your job well and at the times that suit you and your team. We offer tailored working arrangements to balance commercial needs and personal preferences. You will have the ability to work remotely from home, on-site with our clients and/or at our Central London office located in Barbican! Talk to us if you have any specific requirements.

Contract Type: Permanent

About Redkite:

Redkite's mission is to make data clear, simple and human. We want to redefine the way entire industries use data. We choose to do this by building a thriving team of data leaders, creating a data legacy that endures and empowering happy clients that rave about us.

We provide end-to-end, full-stack data expertise from strategy to design, build and run to help senior business leaders enable better, faster decision-making and accelerated performance. We work with truly inspiring, fast-growing companies like Coca-Cola, Nando's, Diageo, The Economist, Burberry and many more!

Redkite is delighted to announce that we are now part of [Accenture](#). Joining Accenture UK&I's Data & AI capability, we can't wait to work with our new team and continue to help organisations unlock the power of their data.

Find out more about Redkite on our [homepage](#)

The Redkite team & culture:

Our team is connected by our values, these tell the story of what it feels like to work here at Redkite. Values that don't sit on a PowerPoint slide, but are lived and breathed in all of our team:
