

AI Software Developer (f/m/d)

Description

What you can expect – enriching experiences that will last a lifetime

As part of our Europe West Regional Technology Hub in Frankfurt/Main, Hamburg, Köln, Leipzig or Stuttgart you will establish a strategic technology foundation in our EY countries focusing end to end technology success. You will take on a wide range of tasks:

- Development and implementation of internal and external software solutions with AI focus
- Utilizing different databases technologies (e.g. MS SQL, Vector databases) and Azure Services
- Leverage various technologies such as APIs, Web services, authentication, and authorization mechanisms
- Assume responsibility for your product by prioritizing quality and security standards within the team and serve as an essential advisor to customers

What you can contribute – skills for shaping the future

- A degree in Computer Science, Business Informatics, Engineering, or a similar field, and at least 3 years of experience in similar roles in IT or consulting
- Solid knowledge of databases (e.g., MS SQL), Azure Services and various technologies, which are ready to be applied for large-scale AI transformation projects
- Proficient in languages such as C#, Python, and other object-oriented programming languages like Java, C++, etc.
- Analytical and creative with excellent bilingual (English and German) communication skills

What we are offering – an inspiring work environment

At EY, our purpose is *Building a better working world*. To achieve it, we challenge the status quo and already look today for the answers of tomorrow. Standing still? Not an option. Change? We embrace it and see it as an opportunity and driver for innovation.

If that sounds like you, this may be your chance. We're looking for movers and shakers who help companies, entrepreneurs, individuals and the public sector to solve their most pressing challenges. This requires collaboration on eye-level and often leaving the beaten track – as part of interdisciplinary and multicultural teams all over Germany, Europe and around the globe.
