

Data Analyst

Description

Job Responsibilities:

- Collect commercial and client survey data from various sources such as GAN, Quickwin, Cognos files, Salesforce, etc.
- Transform and structure this data using Amadea and datasets in Power BI.
- Analyze data and make it available to:
 - Colleagues within the organization
 - Management (e.g., market shares, NPS (Net Promoter Score) trends in Power BI)
 - Sales teams (e.g., tracking commercial actions and KPIs of sales teams via reports in Power BI)
 - Brokers (providing files via the portal in Salesforce)
 - Third parties (automatic FTP and availability on SharePoint)
- In some cases, provide data through simulation tools in Excel (e.g., custom mix, periodic savings).
- Participate in projects to develop NPS measurements throughout the customer journey.

Required Knowledge:

- Amadea: Advanced proficiency
- Excel (VBA): Advanced proficiency
- Power BI: Intermediate proficiency
- Salesforce: Beginner proficiency

Languages:

Dutch or French

Level: Native or bilingual proficiency

English

Level: Professional working proficiency
