

Student role – Dive Into Data and Commercial Solutions at Devoteam Digital & IT department

Description

Job Description

Are you at your best when working with the combination of data and business that helps drive a consultancy business forward? Do you enjoy handling real problems while advancing the business by driving and solving commercial and data projects? Then read on and become our future student in the Digital & IT department at Devoteam [\[?/?\]](#)

[?/?] Part-time, 10-15 hours a week

[?/?] Central Copenhagen

[?/?] English is a must both written and spoken

You will join our Digital & IT team, which provides valuable data to the internal business owners, so they can make the correct decisions. You can look forward to an everyday life where you will be closely linked to the internal business, supporting, maintaining and driving projects within our Digital & IT department to strengthen the business, by having a correct understanding of their data foundation. The different daily tasks would look something like this:

- Support with driving commercial projects in Salesforce
- Contribute to maintenance and development of data pipelines in dbt
- Contribute to maintenance and development of Tableau dashboards / visualisations from systems like Unit4 / Salesforce / Whoz
- Support business users with ad-hoc analyses / questions (finance, operations, etc..)
- Help with training, onboarding, support, and reporting in tools like Salesforce and Tableau

In short, you ensure that the business is fully operational and enables them to make better decisions based on real life data and help continue to optimise the sales processes. Which will free up time to see new potentials in the business.

About you

We are looking for a student assistant who has a flair for data and business understanding. For you to thrive in the role, it would be fitting for you to tick the following:

- You are studying a relevant bachelor's or master's degree that combines both data and business understanding and have at least 2 years left.
- Having experience within data (Google sheet, Excel, SAS, Stata, SQL, R,

SPSS and the like) is a plus. It is also an advantage if you have experience within the tools like Tableau, Alteryx and dbt.

- Have the curiosity and willingness to learn by understanding the sales and business perspective in a Consultancy company.

You are someone who is comfortable training others and interacting with various stakeholders at all levels. At the same time, you have an interest in IT and a drive to help grow the business. You enjoy collaborating and supporting people, sharing knowledge and learning from others, while also driving your own projects.

Why Devoteam, you might think?

We'd rather not brag, but we can assure you that you'll be part of a cool team. If that's not enough, we have other benefits to sweeten the daily life:

Challenging tasks – many of them end-to-end and with freedom under responsibility

Competence communities – inspire and be inspired by other data experts

Career and development plans – we invest in our talents and ensure that you thrive and develop your skills

Social events – many social events throughout the year with all sorts of fun activities outside of work. To plan this, we have a sports committee, culture committee and a party committee, which you should be more than welcome to join.

Work-life balance – we are flexible in terms for your spare time and studies

Snacks – a snack cabinet that can impress most people

Onboarding – A tailored onboarding program

Application process

Are your fingers itching to become part of Devoteam? With us, you don't need to send cover letters and answer long questionnaires. Instead, apply in seconds by uploading your CV or LinkedIn profile.

If you have any questions, you are also very welcome to contact Søren Kerschner-Hansen, Recruitment Partner on +45 31 77 94 83.

We are looking so much forward to hearing from you.

About Devoteam

Devoteam is a leading digital consulting firm represented in 20 countries across Europe, the Middle East and Africa, with around +10.000 employees.

Locally in Denmark we are around 350 employees and have two offices, one centrally in Copenhagen and one centrally in Aarhus. We work with customers in both the private and public sector.

In Denmark we are spread across five business units that each work around digital transformation in different ways. The five business units are: Cloud (Microsoft and Google Cloud), N Platform (ServiceNow), Digital Impulse (Management Consulting), Cyber Trust and Data Driven. We do many projects with customers across our business units and deliver cross functional solutions.

Besides this we are Strategic Partners with: AWS, Google Cloud, Microsoft,

Salesforce and Servicenow.
