Student Assistant 3D Data-/Video Processing / Machine Learning

Description

Future. Discover. Together.

Innovations for the digital society of tomorrow are the focus of research and development work at the Fraunhofer Institute for Telecommunications, HHI. The Fraunhofer HHI is a world leader in research into mobile and optical communication networks and systems, as well as the coding of video signals and data processing. We are looking for student assistants for the research group "Immersive Media & Communication" in the department "Vision & Imaging Technologies (VIT)". In our national and European research projects, we develop new computer vision methods for 3D video processing, 3D scene reconstruction and analysis for digital and immersive media as well as medical technology and industrial applications. Become a part of our team and join us on our journey of research and innovation!
