

Data Analyst

Description

Hybrid role based in Warsaw, Poland

Role Overview

At Uncapped, we help ambitious founders realise their dreams. We are growing rapidly and have a high-profile role to help drive our expansion operations around the world.

We are looking for a Data Analyst to join the Uncapped.

As part of Uncapped team; you will be involved in building the next generation of products suited specifically for the needs of fast paced digital entrepreneurs. As we continue to expand globally; our goal is to have a team who are capable of getting the most out of our internal data and creating high-level business intelligent streams, while keeping our products ahead of the competition and powering new and exciting services that solve real problems for our customers.

As a dedicated Data analyst within our core product, you will be involved in regularly conducting analysis for all stakeholders. Your daily work will impact how and what we build; as well as drive the direction we are heading as a business. You will dive deeper into crucial team metrics, drive best practices and help scale our data governance. The insights generated from your datasets will crucial and used by the rest of the company to enable our growth globally.
